

RESIDENCE LIVING-LEARNING COMMUNITIES

“

Living in a LLC is an amazing and convenient way to meet other people in your program! You always have people to study with and it's easy to make friends because you're all coming in with similar interests. The staff member on your floor will also plan events that are tailored to your program. These are great opportunities to learn more about your faculty and what it has to offer!”

– Lara A.,
Faculty of Science

THE RESIDENCE ACADEMIC ADVANTAGE

Living-Learning Communities

One of our most effective, high-impact and immersive programs in residence that fosters academic success.

Living-Learning Communities (LLCs) are themed floors in residence where students that share the same academic faculty, program or interest live together on the same floor. They are developed to give students a more enriched living and learning environment, combining academic integration, personal development and community engagement.

LLCs offer students additional benefits, including:

- An easy way to meet peers who share the same interests and academic goals
- Easier access to study groups and social events
- Programs and events tailored to fit their needs, goals and interests
- Multiple upper-year mentors who have first-hand experience with classes and assignments
- Enhanced opportunities for career and life-skill development
- Volunteer and leadership development opportunities connected with their academic community
- An increased sense of belonging in a particularly supportive environment

All LLCs are optional for students, and there is no additional cost to live on any of these floors.

Living-Learning Communities

LGBTQ+ AND ALLY COMMUNITY

ONTARIO HALL

The LGBTQ+ and Ally Community welcomes all members of the Lesbian, Gay, Bisexual, Transgender, Transsexual, Two-spirited, Queer and Questioning community and their Allies (those who support and positively affirm all members of the Queer community). This community offers a supportive environment for students questioning their gender and/or sexuality, advocates for LGBTQ+ rights and strives for an environment where all students feel celebrated and empowered.

Selection Process

If you're interested in applying to one or more of the Living-Learning Community floors, indicate your preferences in the Residence Placement Questionnaire in the myHousing Portal when you accept your residence offer. All floors are arranged as demand dictates. Certain options may not be offered if we don't have sufficient student interest. While we do our best, we cannot guarantee placement on the floor of your choice.

What is so incredible to witness about the SASAH learning experience is its capacity to tap into and unleash students' critical, cultural and social energies. The opportunity to live, learn and grow together on the dedicated learning floor, not just with other SASAH students—but with students from across Western and around the globe—is an essential part of this development. The future is in good hands."

– Dr. Joel Faflak, Former Director, School for Advanced Studies in Arts & Humanities (SASAH) and Residence Faculty Mentor
