Western Housing makes every reasonable effort to accommodate the needs of our residents who are members of a protected group and/or fall under a protected ground of discrimination as per human rights law and Western's policy on Non-Discrimination and Harassment. Most often, we are able to consider housing assignment requests based on cultural or creed-based reasons (i.e., Indigenous, spiritual or religious practices); sexual orientation and/or gender identity and expression; and disability (medical or health needs, including allergy).

Final room assignments are determined by the Division of Housing and Ancillary Services according to the level of resident's need(s), in conjunction with an appraisal of the residence options available to accommodate the student's need.

We require specific information in order to evaluate how we can best meet your accommodation needs. Please complete **Part A** of the form below. Should you be seeking accommodation based on disability, please ensure that a qualified health care professional, who is familiar with your needs and can substantiate your request, completes **Part B**. Please ensure all requests are completed in full, in accordance with process outlined on our website ([https://residence.uwo.ca/applying/key\\_steps/index.html](https://residence.uwo.ca/applying/key_steps/index.html)). Failure to do so, may mean your request is unable to be considered.

**Food and Environmental Allergies:** All of our residences can accommodate the needs of students with common food or environmental allergies. Students who identify their dietary needs as a medical or health factor to be considered may be assigned to one of our largest residences where the menu options are the most extensive. Hospitality Services will be notified of all students who indicate food allergies on this form. In addition, students with severe food allergies are strongly advised to contact Hospitality Services ([nutritionservices@uwo.ca](mailto:nutritionservices@uwo.ca)) prior to arriving or upon arrival.

**Documentation:** All documentation submitted is kept strictly confidential. Information regarding a student's disability may be shared with the Services for Students with Disabilities (SSD) for placement purposes only, and/or Hospitality Services, in the case of a special dietary need. Other campus units such as Campus Police, Fire Safety, or Residence Life, may be notified if a health condition warrants special evacuation procedures to support a student living in residence.

**Services for Students with Disabilities:** All students with disabilities are strongly encouraged to register with SSD ([www.sdc.uwo.ca/ssd/](http://www.sdc.uwo.ca/ssd/)) before the academic year commences. If you provide SSD with information that you believe would be helpful to your residence room assignment, please provide SSD with permission to share the pertinent information with Residence Admissions. SSD may also be able to provide you with information about other disability-related services that may be of assistance to you at Western.

**Long Mattress Requests:** Standard mattresses throughout our housing system are 80" in length, the same length as a typical Queen or King mattress. Historically we have found that students who are 6'6" tall or shorter have found the standard length mattress to be a comfortable size.

While we will do our best to accommodate your needs, it may not be possible to provide accommodation in every situation. Some students may find that Western cannot adequately meet their housing needs and may pursue accommodations off-campus.
